FOR IMMEDIATE RELEASE

ACS Ventures, LLC Announces Acquisition of Virtual Psychometrics, LLC

Las Vegas, NV – June 11, 2018 - ACS Ventures, LLC (ACS) has finalized an agreement to acquire Virtual Psychometrics, a technical service provider focused in licensure and certification testing offering operational psychometric services including job task analysis, standard setting, item analyses, forms assembly, and expert-level consultation on all aspects of program design, development, and maintenance. As part of the acquisition, founder, Dr. Deborah Schnipke, joins ACS as a Senior Psychometric Consultant bringing more than twenty years of psychometric expertise in test development and validation processes across an impressive list of industries.

“I am excited to join the ACS team and see this as a chance to contribute to a growing company, offer a broader range of services, and continue to provide high quality service within the credentialing and education sectors.” says Dr. Schnipke. “We regularly look for opportunities to make long term investments in the growth of the organization while also adding new staff to the ACS team,” Susan Davis-Becker, Partner at ACS states, “We are very excited to combine our talents to provide psychometric design, evaluation, and operational support services while retaining the exceptional quality assurance standards our clients have come to expect.”

ACS is excited to announce that Deborah will join the ACS team at the upcoming CCSSO/NSCA conference, June 27-29, 2018 in San Diego, CA.
